73. Material Change

Save as disclosed in the Programme Memorandum as read together with this Applicable Pricing Supplement, there has been no material change in the Issuer's financial position since the date of the Issuer's last audited financial statements. After due and careful enquiry and consideration, carried out without the involvement of the auditors of the Issuer, the Issuer is satisfied that there has been no material change in its financial or trading position since the end of the financial year ending 31 December 2012.

74. Responsibility Statements

The Issuer certifies that to the best of its knowledge and belief, there are no facts that have been omitted which would make any statement in the Programme Memorandum, as read together with this Applicable Pricing Supplement, false or misleading and that all reasonable enquiries to ascertain such facts have been made, as well as that the Programme Memorandum as read together with this Applicable Pricing Supplement contains all information required by law and the JSE Listings Requirements. The Issuer accepts full responsibility for the accuracy of the information contained in the Programme Memorandum as read

together with this Applicable Pricing Supplement, except as otherwise stated therein or herein.

The Issuer confirms that the JSE takes no responsibility for the contents of the information contained in the Programme Memorandum as read together with this Applicable Pricing Supplement, makes no representation as to the accuracy or completeness of any of the foregoing documents and expressly disclaims any liability for any loss arising from or in reliance upon the whole or any part of the information contained in the Programme Memorandum as read together with this Applicable Pricing Supplement.

75. Other provisions
- 75.1 South African Exchange Control
- 75.2 Optional Early Redemption Trigger
- 75.3 Additional Risk Factors
- Any holder of these Notes which is subject to the exchange control regulations of the South African Reserve Bank (“SARB”) hereby warrants and confirms that it has obtained any necessary approvals from the SARB to hold these Notes and acknowledges and agrees that it is solely responsible for maintaining any such approvals, satisfying any conditions imposed in terms of such approvals and for fulfilling any relevant reporting requirements.
- If at any time on any day prior to the redemption of these Notes, the Calculation Agent determines that the Unwind Value of the Notes would be less than 35% (the “Trigger Level”) of the Nominal Amount thereof, the Issuer may elect, in its sole and absolute discretion, regardless of whether or not such Unwind Value is still below the Trigger Level at the relevant time or on the date on which the Notes are to be redeemed, to redeem the Notes early in accordance with the provisions of Condition 7.3 (read with paragraph 52 above) by delivering the Optional Redemption Notice.
- Any Unwind Value, Early Redemption Amount or Cash Settlement Amount may be calculated by reference to Obligations of the Reference Entity or instruments referencing Obligations of the Reference Entity with a principal or notional amount equal to the Reference Currency Notional (as defined in 75.4.5 below). For the purposes of determining any Unwind Value, Early Redemption Amount or the Cash Settlement Amount, any

amount denominated in the Reference Currency will be converted into the Settlement Currency at the then prevailing exchange rate between such currencies, as determined by the Calculation Agent.

As such, Noteholders may be exposed not only to credit risk of the Reference Entity and the Issuer, but also to the performance of the Reference Currency relative to the Settlement Currency, which cannot be predicted. Investors should be aware that foreign exchange rates are, and have been, highly volatile and determined by supply and demand for currencies in the international foreign exchange markets, which are subject to economic factors, including inflation rates in the countries concerned, interest rate differences between the respective countries, economic forecasts, international political factors, currency convertibility and safety of making financial investments in the currency concerned, speculation and measures taken by governments and central banks (e.g., imposition of regulatory controls or taxes, issuance of a new currency to replace an existing currency, alteration of the exchange rate or exchange characteristics by devaluation or revaluation of a currency or imposition of exchange controls with respect to the exchange or transfer of a specified currency that would affect exchange rates and the availability of a specified currency).

The Optional Early Redemption Trigger references the Unwind Value, which may, in certain market conditions, be volatile. It may therefore occur that at the time that the Optional Early Redemption Trigger is exercised market conditions have changed, or market conditions change shortly thereafter, such that the Unwind Value would no longer have been below the Trigger Level.

The Trigger Level of these Notes has been inserted for the benefit of the Issuer and accordingly is not intended to be an implied guarantee or assurance of a minimum return on the Notes, nor is the Issuer under any obligation to exercise its right to redeem the Notes early in the event that the Trigger Level is breached. Accordingly, any Early Redemption Amount or Cash Settlement Amount payable in respect of the Notes may be less than 35% of the Nominal Amount. The determination of whether or not the Trigger Level has been breached is based

on the Calculation Agent's estimates of the Unwind Value, and accordingly the Early Redemption Amount payable to Noteholders following delivery of the Optional Redemption Notice or any Cash Settlement Amount payable following the occurrence of an Event Determination Date may differ from such estimates. In addition, due to the volatility of the Underlying Components, the Unwind Value may fluctuate between the time at which the Trigger Level is first breached and the date on which the Notes are to be redeemed in terms of Condition 7.3, if applicable, which may result in an Early Redemption Amount lower than 35% of the Nominal Amount of the Notes.

75.4 Additional Definitions:

75.4.1 Unwind Value

Means on any day, in respect of each Note, an amount calculated by the Calculation Agent in its sole discretion equal to:

- (A) the sum of the Settlement Currency Equivalents of the value of each of the Underlying Components of the Notes (as defined below) on such day, determined by the Calculation Agent in its sole discretion, acting in a commercially reasonable manner, which may be either positive or negative minus any Trigger Unwind Costs (as defined below),

multiplied by

- (B) a fraction equal to the Specified Denomination of such Note divided by the Calculation Amount.

75.4.2 Underlying Components

Means each of the components determined by the Issuer in its sole discretion which make up these Notes, including but not limited to:

- (i) a hypothetical credit default swap with the Issuer as the seller of protection, referencing the Reference Entity, with a Fixed Rate Payer Calculation Amount and Floating Rate Payer Calculation Amount equal to the Reference Currency Notional, entered into on market standard terms applicable to the Transaction Type "Standard Emerging European Corporate" as at the Trade Date

(as defined in paragraph 10 above), with an “Effective Date” and “Scheduled Termination Date” equivalent to the Issue Date and the Scheduled Maturity Date of these Notes; and

- (ii) any instruments held or entered into by the Issuer in its sole discretion in order to hedge its obligations to the Noteholder under these Notes, including but not limited to any fixed deposits and/or cross currency swaps entered into by the Issuer.

Unless otherwise indicated, capitalised terms used and not otherwise defined in subparagraph (i) of this paragraph 75.4.2 will have the meaning as defined in the 2003 ISDA Credit Derivatives Definitions as supplemented by each of the May 2003 Supplement and the 2005 Matrix Supplement to the 2003 ISDA Credit Derivatives Definitions, as published by the International Swaps and Derivatives Association, Inc.

75.4.3 Trigger Unwind Costs

Means an amount determined by the Calculation Agent equal to the sum of (without duplication) all costs, expenses (including loss of funding), tax and duties incurred by the Issuer or gains, including funding benefits, actually realised by the Issuer, in which case expressed as a negative number, in connection with the redemption of the Notes and the related unwind, termination, settlement, amendment or reestablishment of any hedge or related trading position (which for the avoidance of doubt may include, but shall not be limited to, instruments of the type referred to in paragraph 26 above), provided that on any day on which the Unwind Value is required to be determined where the Notes are not being redeemed on such day, the Trigger Unwind Costs will be determined based on the Calculation Agent’s estimate of what such costs, expenses, taxes, duties or gains would be if the Notes were to be redeemed on such day and assuming that the relevant hedges or related trading positions would be unwound, terminated, settled, amended or re-established, as the case may be.

75.4.4 Reference Currency

Means United States Dollars (“USD”).

75.4.5 Reference Currency Notional

Means USD5,938,384

- 75.4.6 Settlement Currency Equivalent Means, in respect of any amount denominated in the Settlement Currency, such Settlement Currency amount and in respect of any amount denominated in a currency other than the Settlement Currency (the "Other Currency"), the amount of the Other Currency converted into the Settlement Currency at the spot rate of exchange (as determined by the Calculation Agent in its sole discretion) as at the date on which the Settlement Currency Equivalent is required to be determined, or in such other commercially reasonable manner as the Calculation Agent shall determine.
- 75.5 Tap Issue: This Note was originally issued in an Aggregate Nominal Amount of ZAR100,000,000 and a further (i) ZAR25,000,000 was issued under a tap issue on 19 February 2014 and (ii) ZAR50,000,000 was issued under a tap issue on 26 February 2014.
- 75.6 Repurchase: The Issuer repurchased Notes equal to the following Nominal Amounts on the following dates: (i) ZAR10,000,000 on 27 May 2014 and (ii) ZAR100,000,000 on 28 August 2014.

Application is hereby made to list this issue of Notes on the JSE as from 11 February 2014.

Signed at JOHANNESBURG on this 20th day of November 2014.
